Reflectance Test Report

Standard(s) IES LM-58:1994, IES LM-45:2009

Customer Newmat USA, 81 Mahan St., W. Babylon, NY 11704

General Information		Sample Details		Reflectance Standard	
Test Report	R1206072-C1	Material	PVC Membrane	Model Number	SRS-99-20
Tested	7 June 2012	Manufacturer	Newmat	Reflectance	99%
Created	7 June 2012	Catalog No.	S600/neige	Manufacturer	Labshpere
Sphere Temperature	25.4 °C	Serial No.	N/A		
Humidity	14.2 %	Finish	White Satin		

Tested By: Jean-Paul Ojeil

Approved Signatory: Chrisnel Blot

Signature:

Notes

- 1) Field performance may differ from laboratory measurements. Results are valid for tested material only.
- 2) The original electronic file or paper report cannot be edited in whole or in part without written consent of Spectra Lux Industries Inc.
- 3) This test report describes the performance of a single product and does not necessarily represent the average performance of a group of the same product.

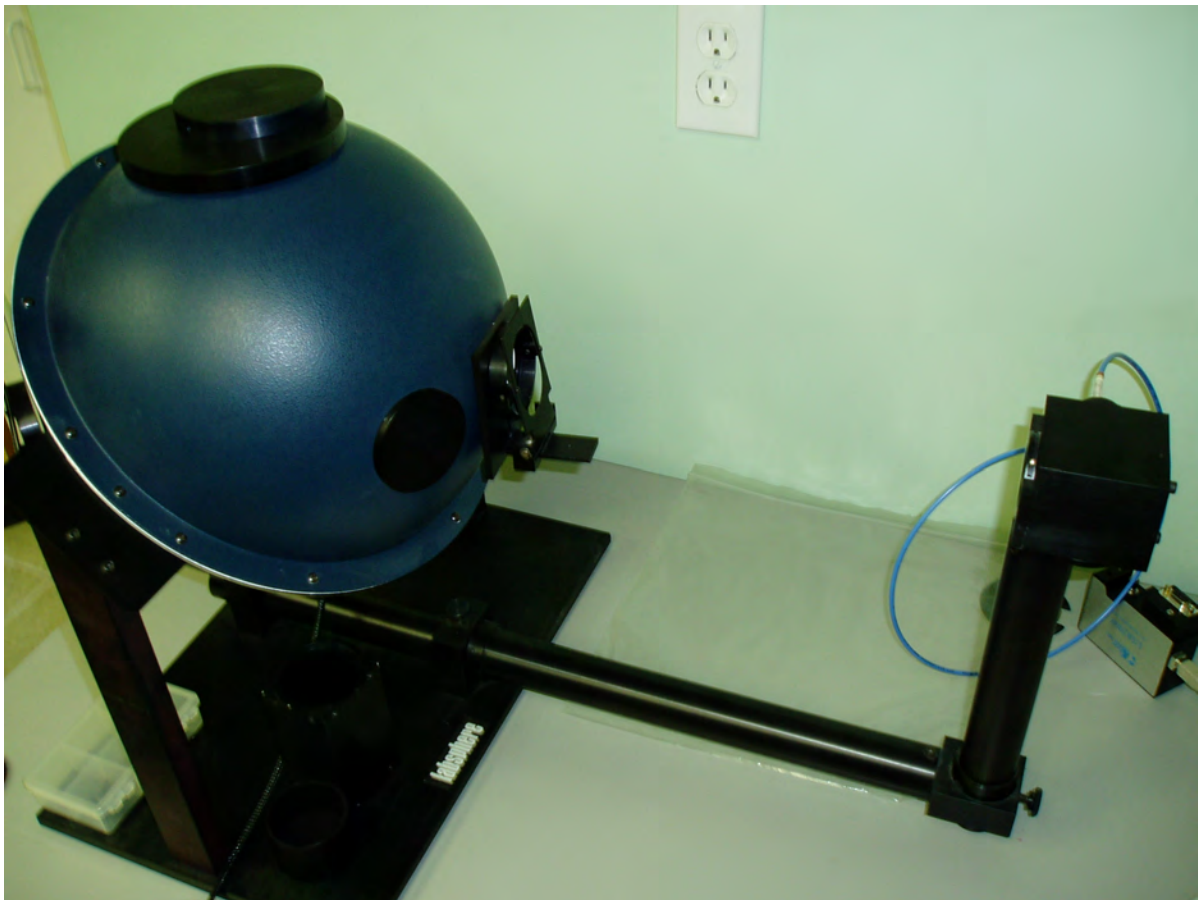

Reflectance Test Method

The test was performed in a 0.3 meter diameter sphere with a spectrophotometer covering the full visible spectrum range from 380 to 780 nanometers.

During the test, a reference lamp was used and a certified reflectance standard was used at an incident angle of 8° from normal.

Good electrical contacts have been used to ensure the control of electrical parameters and an adequate stabilization prior to collecting spectrographs acquisition.

Equipment, reference standards and methods are traceable to NRC (National Research Council of Canada).
